

Stas Chernenko

Full Stack Developer (Node.js, typescript)

I want to work with a large and complex application in a skilled team as a middle full stack or backend developer. With challenging and ambitious tasks. Prefer nodejs with/without angular, the best proportion is 80% of the time working with nodejs and 20% with angular.

Responsibility. Conscientious. Always looking for challenges:
[DEV Challenge Frontend. Winner \(Angular, Pro\)](#) (Jul 2019)
[JavaScript GlobalLogic ProCamp](#) (Jan 2018 - Feb 2018) [Binary Studio Academy](#) (Jul 2017 - Sep 2017) [Ciculum Internship](#) (Sep 2016 - Nov 2016)
